

## **Development Continuum Ltd**

Learning and Development

*Rosie, from The Best of Both, has undertaken bookkeeping services for me for the last 12 months. I have found her to be reliable and prompt with monthly reports which are presented in a clear and concise manner. She patiently chases me when I forget to include details or mislay bills.*

*I have chosen to have Rosie undertake these activities as it is not one of my strengths which means that it was taking me a long time to complete the appropriate records that Rosie can complete in a few hours. This means that using The Best of Both has resulted in a cost effective approach to record keeping as I can concentrate on developing and delivering my services. Occasionally I have asked Rosie questions or to explain standard accounting/bookkeeping processes and she has been very patient in explaining details to me.*
